

Time	Programme		Chair
Session 1			
Research and Innovation			
08:25	Welcome Emma Clark		Chair: Neil Gittoes
08:30	Osteoporosis and Bone Research Academy: Launch of the Research Roadmap Juliet Compston & Nick Harvey		
09:00	Celebrating success - New investigator award announcement - Abstract commendations - Announcement of Linda Edwards award Emma Clark		
	Parallel Session 1 The future view	Parallel Session 2 Vertebral fracture, technology and development	
09:05	Novel technology in osteoporosis and fracture risk identification Ken Poole Vertebral fracture identification: Is computer aided technology ready for clinical use? Emma Clark	Vertebral fracture Identification: Where are we now? Jill Griffin Holistic approach to pain management in adults with vertebral fractures Terence Ong	Parallel 1 Chair: Richie Abel Parallel 2 Chair: David Armstrong
09:45	Q&A	Q&A	
09:55	Getting started in research Beth Curtis Recent advances in osteoporosis genetics Jon Tobias ROS: launch of research grants Francesca Thompson	Emerging and new technology in bone mass measurement and assessment Karen Knapp Developing the role of physiotherapy in osteoporosis Julie Whitney (TBC)	
10:35	Q&A	Q&A	

10:45	<div> GEDEON RICHTER</div> <div>Gedeon Richter sponsored symposium Navigating biosimilars of teriparatide: Practical advice and case studies Professor Michael Stone, Consultant Physician and Clinical Lead for Metabolic Bone Disease Services, Cardiff and Vale University Health Board This session will discuss practical tips for accessing and implementing biosimilars of teriparatide as well as explore case studies of its use. The promotional symposium is sponsored and organised by Gedeon Richter. Gedeon Richter medicines will be discussed at this meeting. UKI-TERR-2000064 – November 2020</div>		
11:25	Break		
Session 2 Innovation in clinical practice: here and now in the time of COVID			
12:00	Fracture prevention – Restore, Rebuild and Reset Delivering core NHS and care services during the pandemic and beyond Nicky Peel		Chair: Madhavi Vindlacheruvu
	Parallel Session 1 The NHS Reset Agenda	Parallel Session 2 Fracture risk	
12:20	Managing Everyday difficulties in common cases 'in the time of COVID' Neil Gittoes and David Armstrong	Imminent fracture risk Cyrus Cooper	Parallel 1 Chair: Madhavi Vindlacheruvu Parallel 2 Chair: Mike Stone
12:40	Hip fracture care and rehab in the time of COVID Celia Gregson	Guiding patients through the minefield of risk versus benefit Bo Abrahamsen	
13:00	Q&A	Q&A	
13:20	UCB-Sponsored Symposium A novel treatment approach for postmenopausal women with severe osteoporosis at high risk of fracture This promotional symposium is sponsored and organised by UCB and UCB medicines will be discussed at this meeting		

13:50	Break		
Session 3 Current clinical challenges- Inspiring best practice here and now in the time of COVID			
14:30	Optimising virtual healthcare delivery Zoe Paskins		Chair: Claire Higham
	Parallel Session 1 Virtual healthcare and making it fit for our patients	Parallel Session 2 Treating our patients effectively	Parallel 1 Chair: Claire Higham
14:50	Effective Remote Fracture risk assessment- The evidence for what really matters Eugene McCloskey	Supporting treatment adherence across healthcare settings Rob Horne	Parallel 2 Chair: Stuart Eastman
15:10	Is now the time to exploit Bone turnover markers in osteoporosis management? Richard Eastell	Stopping denosumab the knowns and unknowns Bente Langdahl	
15:30	Q&A	Q&A	
15:50	Stryker Sponsored Symposium Vertebral augmentation: Efficacy, mortality, real world evidence and implants, a look at the evidence This promotional symposium is sponsored and organised by Stryker.		
16:30	Closing remarks		Emma Clark
